Instructions: Practice writing the spelling words in the space on the right, then find an adult to read you the safety paragraphs when you are done.

**Crowd**

If a stranger ever tries to approach you or makes you uncomfortable, stay away and start walking to where there is a *crowd* of people. There’s safety in numbers, and if someone is out to get you, it’s harder for them to do so in a *crowd*.

**Puppy**

Would you like to see my *puppy*? I found something on the side of the road, can you come here and tell me who it belongs to? An abductor might use all sorts of tricks to try to lure you away or get you close to their car. Don’t fall for it. Stay safe, and stay away!

**Scream**

If a stranger ever tries to grab you, *scream* "stop touching me like that stranger!" at the top of your lungs. You should also hit, kick, claw, wriggle out of your clothing, and do whatever you can to get away. Run to the first adult you see and ask for help.

**Abduct**

If a stranger tries to approach you in their car, stay away and start walking in the opposite direction of the car. It’s harder for them to *abduct* you this way, because they have to turn the car around to do so, which is difficult to do in the middle of the road.

**Family**

A stranger is anyone you OR YOUR PARENTS do not know well. If you know somebody but your parents do not, they are still an unfamiliar person to your *family*. Don’t go anywhere with them without your parents’ permission.
